

Apples and Pumpkins Activity Card

Dear Families - Apples and Pumpkins, which shows a little girl's trip to a pumpkin farm, gives us a good opportunity to talk about the order in which events occur. The pictures below show a series of events from a pumpkin's first appearance as a seed to its final appearance as a decoration for Halloween. Talk with your child as the two of you put the pictures in their order. [HINT: Using words such as "first", "second", "third", "fourth", "fifth", and "last" gives your child an opportunity to hear some new number-related words.] When you're finished, keep the pictures in an envelope on which you've written *Apples and Pumpkins* so your child can play this game again.
