

Pumpkin Pumpkin Activity Card

Dear Families - Pumpkin Pumpkin shows the life cycle of a pumpkin. Use the pictures below to talk about the order in which events occur. Talk with your child as the two of you put the pictures in their proper order. [HINT: Using words such as "first", "second", "third", "fourth", "fifth", and "last" gives your child an opportunity to hear some new number-related words.] You may also want to talk about *rain* and *sun* and how these are important in a plant's life. You can keep these pictures in an envelope on which you've written *Pumpkin Pumpkin* so your child can play this game again.
